

exhi:bit Prototyping System

| | |
|---------------------|------------|
| Product Ref. | PPMB00101 |
| WECL Ref. | 58-33-8901 |

Product Description

exhi:bit Prototyping System 不但為 micro:bit 擴充出樣板空間，更把 micro:bit 的 20-pin 邊緣連接器全部引出，變成可以用鱷魚夾連接的 Pad。用家只要把套裝附送的黏貼式麵包板貼在樣板空間上，就能即時把焊接式的樣板空間轉化為插線式；又或者把可替換式的 DIY Daughter board 置於樣板空間上，把焊接製作的各種專題隨心所欲地安裝於樣板系統上。

Product Specifications

| | |
|---|--|
| 套件內容 Kit Content | Prototyping system Sticky breadboard 8.4×4.6×0.85 cm (270 Holes) |
| 供電方式 Power Supply Method | 2.1 mm 5~9 Vdc power supply socket USB micro B port |
| 連接方式 Connection Method | Edge connector pad on prototyping system for pin I/O with micro:bit (use with crocodile and/or banana plug) Edge connector socket for pin I/O with, and power output to micro:bit |
| 封裝方法 Form Factor | Breadboard form factor prototyping area, can be covered by exhi:bit DIY Daughter board, or sticky breadboard |
